About

I am a dedicated web developer with a passion for creating dynamic and efficient web applications. With expertise in both frontend and backend development, I specialize in building user-friendly interfaces and robust systems using modern technologies like React, PHP, Laravel, and more. I am committed to continuous learning and collaboration, always striving to enhance my skills and contribute effectively to team projects.

Skills

Languages: Javascript, React , PHP, Laravel

Technologies: MySQL, MongoDB, firebase, Git, Linux, Docker, Bootstrap, Tailwind, Material UI, Heroku, jquery, Sass, HTML, CSS

Experience

G.O Green Enterprises Incorporated

Web Developer - 2023, USA - <https://gogreenentinc.com>

- Implemented functionality for end-users to product edit catalog including options to add categories, attach images, and include content.
- Developed an admin interface for managing product, including user management and access restrictions.
- Added search functionalities for each module on the admin pages to enhance content management efficiency.
- Resolved frontend issues across the platform, focusing on JavaScript and CSS enhancements to improve user experience and interface stability.
